URVAL - C
LIQUID FERTILISER

For Green Walls & Hydroponic Systems

- Healthy plant growth
- Supports flowering & fruiting
- Safe on P-Sensitive Australian native plants
- Concentrate – makes up 2000 L

10 Litres

NICE GREEN TECH

AUSTRALIAN MADE AND OWNED

PRODUCT OVERVIEW

Urval is a sustainable liquid fertiliser made through nutrient recovery technology, transforming natural nutrients into a valuable resource for urban agriculture. Its balanced formulation supports strong plant growth in hydroponic systems, green walls and roof top gardens; helping cities integrate more greenery while reducing reliance on synthetic fertilisers.

APPLICATION GUIDE

Application situation	Rate per 1 L of Water	Application Frequency*
Green walls	5 mL	Weekly application for runoff systems. Fortnightly application for recirculating systems
Hydroponics various systems	3-8 mL	Adjust pH and EC on weekly basis. Fortnightly replace the solution in recirculating systems

*discharge off old solution and runoff into the sewer.

STORAGE
Store away from sunlight, and below 30°C.

CAUTION
Natural ingredients may stain porous surfaces.

SAFETY DIRECTIONS
- Not to be taken.
- Keep out of reach from children.
- May irritate skins and eyes.
- Wash hands after use.

Please recycle

COMPOSITION

Element	Amount [g/L]
Total Nitrogen [N]	43.8
As $N\text{-}NH_4^+$	22.6
As $N\text{-}NO_3^-$	21.2
Phosphorous as $P\text{-}PO_4^{3-}$ [P]	6.2
Potassium [K]	29.7
Calcium	0.1
Magnesium	0.01
Sulphur	30.5
Iron	0.002
TDS	100
