

URVAL - C

LIQUID FERTILISER

For Green Walls & Hydroponic Systems

Healthy plant growth

Supports flowering & fruiting

Safe on P-Sensitive Australian native plants

Concentrate – makes up 4000 L

20 Litres

PRODUCT OVERVIEW

Urval is a sustainable liquid fertiliser made through nutrient recovery technology, transforming natural nutrients into a valuable resource for urban agriculture. Its balanced formulation supports strong plant growth in hydroponic systems, green walls and roof top gardens; helping cities integrate more greenery while reducing reliance on synthetic fertilisers.

APPLICATION GUIDE

Application situation	Rate per 1 L of Water	Application Frequency*
Green walls	5 mL	Weekly application for runoff systems. Fortnightly application for recirculating systems
Hydroponics various systems	3-8 mL	Adjust pH and EC on weekly basis. Fortnightly replace the solution in recirculating systems

*discharge off old solution and runoff into the sewer.

STORAGE

Store away from sunlight, and below 30°C.

CAUTION

Natural ingredients may stain porous surfaces.

SAFETY DIRECTIONS

- Not to be taken.
- Keep out of reach from children.
- May irritate skins and eyes.
- Wash hands after use.

Please recycle

COMPOSITION

Element	Amount [g/L]
Total Nitrogen [N]	43.8
As N-NH ₄ ⁺	22.6
As N-NO ₃ ⁻	21.2
Phosphorous as P-PO ₄ ³⁻ [P]	6.2
Potassium [K]	29.7
Calcium	0.1
Magnesium	0.01
Sulphur	30.5
Iron	0.002
TDS	100
